One Health at Massey University

Massey University expertise has been applied to tackle one of the biggest issues the world faces – combating epidemics and pandemics – under the One Health umbrella. Our experts are building human and institutional capability throughout South Asia to detect and respond to emerging disease threats.

Our programmes

The South Asia One Health programme

In 2013 Massey University experts successfully completed the implementation of a four-year European Commission/World Bank One Health programme in South Asia. The programme built human and institutional capability throughout the South Asia region to detect and effectively respond to emerging epidemic and pandemic disease threats.

Improving disease detection in South Asia

Education and Action for One Health

A One Health programme to help improve detection and management of diseases spread from wildlife and animals to humans in Afghanistan, Bangladesh, Bhutan and Nepal is currently being implemented by Massey University.

The three-year programme is due to be completed in 2017.

Education and Action for One Health

Epidemiology Fellowship

The Epidemiology Fellowship Programme South Asia was implemented over two years, completed in 2016. It was set up to improve the livelihoods of people who are at risk of zoonotic disease infection by strengthening local epidemiology skills.

Epidemiology Fellowship

Professional e-learning: Short Courses

The screenshot displays the Stream e-learning platform interface for a course at Massey University. The top navigation bar includes the Stream logo and the Massey University logo. The main content area is divided into several sections:

- ONLINE USERS:** Shows a list of users, including Ridvan Firestone, who was online (last 5 minutes).
- NAVIGATION:** A sidebar menu with links to My home, Site home, Site pages, My profile, Current course (231721_1502_EAP_B1), Participants, Badges, General, Topic One, Topic 2, Topic 3, Course Evaluation, Facilitators Section, and My courses.
- PEOPLE:** A section for Participants.
- ADMINISTRATION:** A section for Course administration, including a link to Turn editing on.
- WELCOME MESSAGE:** A video player showing a welcome message from the course coordinator, Barry Bowman. The text below the video reads: "Welcome! This paper aims to give a broad overview of contemporary public health, acting as a core 'foundation' paper for the whole Masters of Public Health speciality course. It provides you with an understanding of the scope, key concepts, frameworks and practice of public health internationally."
- COURSE ADMINISTRATION:** A section for Student Handbook - Administration and Assignments, with a link to access all course information, including study guides and assignments. It also shows the availability date: 1 July 2015, 12:00 PM.
- FORUMS:** A section for Latest news, Technical help (Technical assistance), Course Discussion and FAQ's, and Tutor Group Discussion Forum.
- COURSE FACILITATORS:** A list of course coordinators and facilitators, including Assoc Prof. Barry Bowman, Riz Firestone, Mathu Shanbhakumar, Grace Chen, Helene Masters, and Sonia Polaki.
- COURSE COMPLETION STATUS:** A section for View course report.
- LATEST NEWS:** A section for the latest news.
- ASSIGNMENT 2a - Online Quiz:** A section for the online quiz, which is currently closed. It shows the number of attempts allowed (1) and the quiz closure date (Wednesday, 29 July 2015, 7:00 AM).

Courses
